## | II. Invitation |

### *“Beyond Asia, to the World with US”*

#### **Dear colleagues and friends,**

On behalf of the organizing committee, we are pleased to invite you to attend the 13th Congress of the Asian Federation of Societies for Ultrasound in Medicine and Biology (AFSUMB 2018) to be held in conjunction with ACUCI 2018 and KSUM Open 2018 at the Coex in Seoul, Korea from May 23 (Wed.) to 26 (Sat.), 2018.

This is the second time that Korea has been given the honor to host this prestigious event since it organized the 1992 congress in Seoul. At the AFSUMB 2018, under the theme “Beyond Asia, to the World with US” a large number of professors, doctors, and distinguished leaders from Asia will get together to discuss recently emerging issues and exchange the latest information in the field of ultrasound in medicine and biology. The AFSUMB 2018 scientific program will propose high quality scientific sessions that will provide deeper knowledge and new perspectives on the field of ultrasound in medicine and biology. The program will be a highly rewarding international platform for every one of the participants, and will contribute to the enhancement of the scientific level and quality of our field.

Seoul, the host city of the AFSUMB 2018, is the capital of South Korea. Rich in historical and cultural heritage, it also offers all the possible conveniences and world-class facilities of the international megalopolis that it has become today. May, with its pleasant weather, is the best time to enjoy the beautiful natural scenery that the capital has to offer.

We look forward to welcoming you and your colleagues to the AFSUMB 2018 which promises to be meaningful and fruitful for all the participants.

Sincerely yours,

**Joon Koo Han, M.D**

Congress President

The 13<sup>th</sup> Congress of the Asian Federation of  
Societies for Ultrasound in Medicine and Biology

**Won Jae Lee, M.D**

Chairman, Organizing Committee

The 13<sup>th</sup> Congress of the Asian Federation of  
Societies for Ultrasound in Medicine and Biology

## | III. Introduction |

### 1) Introduction of AFSUMB and AFSUMB 2018

The Asian Federation of Societies for Ultrasound in Medicine and Biology (AFSUMB) was launched in 1987 with representatives from five countries including Japan, China, Korea, and Malaysia. The AFSUMB is currently the largest federation in WFUMB that combines six area federations throughout the world and consists of approximately 50,000 members from 50 countries, including approximately 18,000 members from 16 countries in Asia. In addition to the AFSUMB Congress, the AFSUMB has been providing its members with diverse educational opportunities such as the WFUMB COE in Asia to share the latest information in the field of ultrasound in medicine and biology.

The 13th Congress of the Asian Federation of Societies for Ultrasound in Medicine and Biology in conjunction with ACUCI 2018 and KSUM Open 2018 (AFSUMB 2018) is next year's edition of the biennial congress organized by the AFSUMB. The AFSUMB Congress has been serving as an arena for exchanging knowledge and communicating about the important topics in the field of ultrasound in medicine and biology. The AFSUMB 2018 marks the second time that Korea has been given the honor to host the AFSUMB Congress since it first organized it in 1992 in Seoul. The AFSUMB 2018 is expected to attract more than 2,000 participants including professors, doctors, and distinguished leaders from about 20 countries in Asia.
